

HW1, Dept: ??, NAME: K

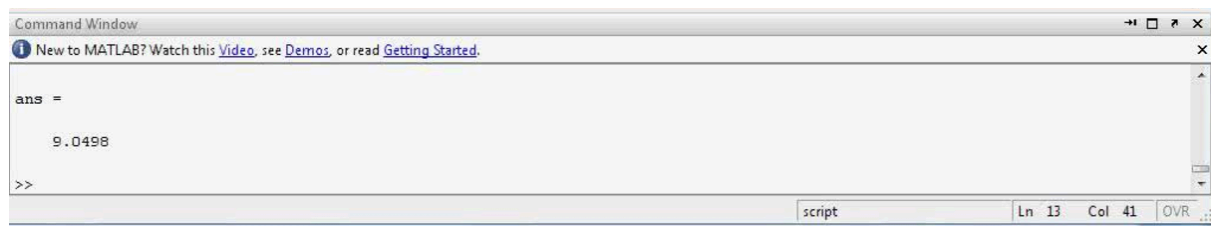

Problem 1

Option 1 (when m file is used)

Code copy

```
41 %set initial condition
42 - S0=[0 1 0 0 0];
43 % variables in S are the states, in the following order:
44 % C R RI RIC+ RIC+C
```

Answer.

If explanation is needed, add text here.

Option 2 (when mfile is not used)

Copy of everything in command window.

If explanation is needed, add text here.
